

Spiral Into Control

Pivot®Plus for the edge you need: Improved interproximal cleaning and enhanced patient comfort.

New PivotPlus Disposable Propphy Angles offer improved prophylaxis efficiency while allowing you to polish adjacent teeth and interproximal areas with greater ease and patient comfort.

- PivotPlus spiral cups capture more paste, allowing easier access to those hard-to-reach areas.
- PivotPlus pairs up perfectly with new cordless hygiene handpieces,¹ and all air-driven low speed motors.
- Only PivotPlus spiral cups have a smooth edge that splays easily into the sulcus, improving your patient's comfort (see examples at right).

Call your favorite dental dealer to take advantage of our risk-free PivotPlus trial offer, or visit www.preventech.com to request a sample. And because all Pivot DPAs are sold at the same reasonable price, PivotPlus allows you to keep your hygiene supply costs under control.
