

# Get in the Groove!

## Reduce splatter. Save time. Improve patient comfort.

Life is better with a groovier cup. PivotPlus has spiral grooves that capture paste for improved splatter control and easier access to hard-to-reach areas. It simultaneously cleans and polishes adjacent teeth and interproximal areas saving you time and lessening stress on your wrist and hands.

Our cup's unique smooth edge splays easily into the sulcus, reducing soft tissue trauma and improving patient comfort. And because PivotPlus is made in the USA, nothing beats its quality, performance and availability.
